# 18-24 February 2024 

Exercise your brain - play Bridge being sold to help support and fund our Under 26 Women's Team for the 8th Youth Transnational Championships in Poland.

Janelle brought donations from Margaret Kane and Barbara Tait, also from Mackay.

The fundraising dinner, much like a Tay Tay concert was fully subscribed almost immediately it was organised.

Tickets for the raffle can be found next to the Bridge Administration office.

Monday Celebrity Speaker William Jenner-O'Shea

## Monday 19th <br> 1.30-2.15pm <br> William JennerO'Shea <br> Overcall more to be a Nuisance.

## Zephyr Education Inc.

Collections will be held during the congress before play and after lunch on MONDAY, WEDNESDAY AND FRIDAY so please give generously to this very practical and worthwhile charity.

Kim Ellaway will also take donations at the office. Carmel Martin is available to answer any questions you may have.

## Bobby Richman Open Pairs

## by Barry Rigal

For the first session of the qualifying, I decided to try to watch some good bridge by watching nine of the top seeds as they worked their way through the deals. Whether I was successful in this I leave to the reader...

One can sometimes judge how a set will go by whether an aggressive slam comes in, or whether you will have to spend the set making up for a firstboard disaster.

Last year's winners Adam Kaplan and Finn Kolesnik bid this in disciplined fashion. Adam as North passed the nine-count then jumped to game facing the Michaels cuebid. James Coutts for the
defence did well to lead a trump not a club, when 13 tricks might have been made. Coutts flew up with the $\vee \mathrm{A}$ at his first turn and Kaplan claimed 480 a few moments later.

By contrast David Beauchamp and Andre Korenhof showed no such discretion.

Beauchamp opened 14 and when his RHO doubled, Korenhof jumped to 2NT, then facing a rebid of to show a minimum he used 5 Exclusion Blackwood and blasted slam.

With the club finesse succeeding that was +1010 for a $99 \%$ result on a low club lead!

Coutts did very well on the next deal, I thought.

\& 102
A Puppet Stayman auction to 3NT saw him receive a heart lead into his tenace. He then guessed extremely well to lead the $\diamond$ Q from hand. When this was covered all round, Kaplan pitched the 287 .

Now I think the indicated line is to run the $\mathbf{~ 1 0 , ~ s o ~}$ that you can repeat the finesse.

Coutts led a spade to the jack and a diamond up.
When Kolesnik ducked Coutts took the club finesse and led 10 from hand.

If Kolesnik ducks this again I'm not sure declarer can make 12 tricks. But he won and led out a top heart. Coutts won and cashed his diamond winner to squeeze Kaplan in the black suit.
+490 was a $91 \%$ result - but even +460 would have been $81 \%$. If declarer misguesses at trick two and takes the spade finesse nine tricks is the likely result.

On board 8, I saw Michael Ware (playing with Pete Hollands) make a very thoughtful play.

Board 8, West deals, nil vulnerable

$$
\begin{aligned}
& \text { \& A K J } 2 \\
& \text {--- } 1096 \\
& \text { J } 10642
\end{aligned}
$$

| - 8763 |  | - 109 |
| :---: | :---: | :---: |
| - K 1052 | N | - J 843 |
| - A 2 | $\mathrm{w}^{\text {s }}$ E | -KQ7543 |

|  | - Q 54 |  |
|  | - AQ9 76 |  |
|  | - 8 |  |
|  | - Q 985 |  |

The unlikely auction that Ware witnessed was:

| West | North | East | South <br> Ware |
| :--- | :--- | :--- | :--- |
| $1 \&$ | Pass | $1 \downarrow$ | pass |
| $2 \downarrow$ | dbl | $3 \downarrow$ | dbl |
| $4 \downarrow$ | pass | pass | dbl |
| all pass |  |  |  |

Having doubled $3 `$ for penalty, Ware wasn't too proud to double $4 \vee$. His partner has suggested a three-suited hand, and there seemed to be a lot of hearts in the deck!

Ware reasoned that his partner hadn't overcalled despite having at most zero hearts (as we shall see, his partner actually had -1 hearts...).

Since Hollands had passed at his first turn, he rated to be 4-0-4-5 and while declarer might discard a spade loser on the clubs, he surely couldn't discard a club loser on the spades.

So, Ware led a spade, and this was the full story;
The defenders cashed two spades and shifted to diamonds.

Declarer won in dummy, ruffed a club to hand and led a heart to the 10. From that point on they were doomed to -500 and N/S had a $97 \%$ result.

As to why partner had -1 hearts? Declarer only discovered at trick 7 that the $\vee 5$ was the $\$ 5$; and yes, the presence of the $\vee 5$ in dummy might have been a clue...

Mathematics is a funny thing. When you declare 3NT on a blind auction and the opponents lead $4^{\text {th }}$ highest against you, from a four-card suit, do you automatically assume that their partner rates to be long in another side suit, rather than the opening leader? That is a fallacy, as this hand demonstrates.

Warren Lazer reached 3NT in an auction where no suits had been bid bar diamonds, on the $\vee 2$ lead.

Who is likely to have the $Q$ ? If opening leader has led his long suit and that is four cards long, then that player I think is favourite to be long not short in diamonds.

So, I believe the odds favour the $A$ then the finesse. Lazer cashed the top diamonds (East pitching a club) then gave up a diamond and the defenders continued hearts.

Two more rounds of diamonds saw East pitch two more clubs, and West had to decide what to retain. The play this far might have been consistent with the declarer having the $\geqslant 10$ not East; West pitched two spades, and now Lazer cashed the $\Delta \mathrm{K}$ to drop the jack, then finessed spades for 11 tricks. +400 would have been a +55 result, +460 was a 65\% result instead.

When you play with Peter Gill, it is easy to bid just a little too much and rely on him to read the position. He had his work cut out here, when in third seat Kim Morrison opened a $2+1 \boldsymbol{1 c}$. Liz Sylvester overcalled 14 (yes, a 1NT call has a lot to recommend it and would have worked a

## treat!).

When Gill responded 1NT Sylvester gave him three, and when a low heart lead went to the jack and king Gill had his back to the wall. on the heart return Gill
cashed the N A - no joy - then had to decide whether to take the diamond then club finesse or play for clubs 2-2.

He did very well I think to play clubs from the top; the clue might have been that his RHO's silence in the bidding might have suggested the diamond finesse would lose.

There was more to come: Chris Hughes discarded a discouraging diamond on the third club, so Gill crossed to hand with the $A$ and ran

clubs. In the four-card ending Morrison came down to two top spades and the $\downarrow$ Q10 so Gill threw him in with a spade for the tenth trick and a $78 \%$ result.

Sometimes the players request anonymity - but Alex Smirnov and Andy Hung have broad shoulders. I will however spare declarer's blushes!
West

4 all pass

1. Both majors less than an opening bid - and then some...

East found herself in $4 \boldsymbol{Y}$ on a top club lead. She won and tried a heart to the ten, queen, and ace. Smirnov returned the $\downarrow$, perhaps unnecessarily,
and declarer won the ace, then advanced the $\$ 10$ and was charmed when Andy Hung played low.
East thoughtfully overtook the 10 and was now in hand. What now?

At this point taking the heart finesse is $100 \%$ assuming your RHO has more than one heart - and diamonds appear to be 6-2 do they not. If it holds you are making at least 420. If it loses, the defenders exit a club. You pitch your diamond, ruff a club, and run the $\$ 10$ to endplay RHO.

Declarer, alas, took the spade finesse when in hand then misguessed hearts and now needed the second spade finesse. Unlucky but a huge opportunity wasted.

## by Stephen Lester

Renee Cooper is a star I believe to be the top of the firmament. She has proved herself at youth level, women's bridge, mixed bridge and while not yet tested in international open bridge, this supporter has no doubt that she has the skills to make it with the "big boys".

Take the hand I watched from the recent South West Pacific Teams which precedes the famous NOT (won by Renee's team, B THOMPSON, Ben Thompson - Renee Cooper, Matthew Thomson - Peter Newman).

A four-person team with a woman(!), Peter Newman, who ventures out once a year to play the event with his favourite partner, Sydney teacher, author and expert Matthew Thomson and evergreen Zone 7 President Ben Thompson.

What a win!
But I digress:

all pass

1. Minors
2. Hearts, positive
3. Cuebid

Five-card major teachers are increasingly tolerant - and sometimes enthusiastic - about opening 1NT on Renee's hand.

The most common response to 14 is 1NT, and for those without Gazzilli (where identifying the strength of a wide-ranging 1 NT is possible), venturing a further bid can be fraught with danger.

Renee heard LHO bid 2NT (normally minors). Ben Thompson, South cooperated with 3\&, showing hearts and invitational plus values, (a standard treatment in this scenario.)

Renee bid $3>$ to show a heart fit and Ben gave a choice of game with 3NT. Renee cuebid 4e and Ben signed off in 4『.

East cashed $\downarrow$ A, K noting partner's upside down count cards, showing three diamonds. Endplayed, she exited $Q$, won by Renee in hand. She played a heart to the ace and a heart to the eight and East's queen. East was forced to either give a ruff and sluff or lead another club. Having been drilled into never giving a ruff sluff, East played a low club and when 9 won the hand was over 10 tricks.

After the hand appeared in the SFOB bulletin, I was approached by two very strong declarers who found fault with the analysis.
"It doesn't make if you give a ruff and sluff, as you have to ruff in the short hand with VK , establishing West's $\upharpoonright J . "$

I mentioned this to Renee later that evening as we were enjoying the event at the Boathouse
Restaurant on the shores of the lake, organised by Convener, Ian Thomson.

Without lifting an eyebrow she said: "If East gives me a ruff and sluff, it's simple. I ruff in dummy, and pitch a club from hand. Now when I ruff spades, I can coup $\upharpoonright J$ at the end".

Was she right? She continued:
"I cash three top spades ending in hand, then ruff my fourth spade in dummy before crossing to hand with A. In dummy, I ruff the last spade with $\geqslant 10$, then $\geqslant \mathrm{J}$ is gobbled up when I play $\boldsymbol{*} 10$.

Of course, it was simple for Renee, who had visualised the entire layout at the first trick.

Here's the two card end position, with Renee in dummy with $\vee 10$ :

## Scott Ellaway

You may recognise the surname. Scott is my nephew from Ray's side. Scott started as a caddy and, when a vacancy came up in the Floor Manager area, he jumped at it and has done a superb job considering he has absolutely no bridge knowledge. He has been an integral part of the set-up team as well.

Scott is now a teacher and cannot attend
 during the weekdays, however, he was here in 2024 for set-up and will no doubt be here for closing down. He also has had both his sisters caddying, brother-in-law caddying, mother finding staff, etc.

## Entry management

Entries are the means of placing the lead where you need it to be.

Preserving an entry or entries is essential in dummy play: for instance, declarer may need to set up a long suit, but that won't help if there is no entry to the long cards after they become established.

How would you declare this slam?

$$
\text { \& Q } 32
$$

- A 43
- 76

| pass | 2 | 3 |  |
| pass | 4 | pass | 5 |
| pass | 6 | all pass |  |
| Opening lead: $\checkmark J$ |  |  |  |

Your $\diamond Q$ wins. The opening lead is helpful, but you still have a certain club loser plus a heart loser. You can hope to set up dummy's fifth club for a heart discard, but if the missing clubs break 4-2, you will need three dummy entries: two to ruff
clubs plus one to return for the good fifth club. Those entries are there - $\varphi$ Q,

PA and A but you can't draw trumps or use \& A until you are ready to start ruffing clubs.

Take the A. Assuming East-West follow, play a low club from both hands. If a defender leads a heart, win with the king, take $\$ \mathrm{~K}$, then go to the $\& A$ and ruff a club high. Go back to $\uparrow Q$ and ruff a club. You can return to $\vee A$ to discard a heart on the good club.

What about this 6a?

- A 42
- 864
- J 5
- AK 642

AKQJ1095
-AK2

- A 7
$+73$
West leads $\vee Q$, and you take the ace.
You have 11 tricks and need to set up a long club again, but this time dummy has one fewer entry. If you take $\mathrm{A}, \mathrm{K}$ and ruff a club, you will be sunk if the suit breaks 4-2.

To get an extra entry, in effect, lead a club and play low from dummy. If a defender returns a heart, win and cash $\uparrow K, Q$. If trumps break 2-2, you can take the $\mathrm{A}, \mathrm{K}$ to discard a heart, then ruff a club if necessary and return to the $\$ A$ to discard a diamond on the fifth club. If trumps break 3-1, lead to the A , ruff a club high and get to dummy with $\boldsymbol{\uparrow} \mathrm{A}$ to discard on the good club.

## Real Bridge Bidding Contest

|  |  | 17 | pass |
| 24 | pass | 4 | all pass |

Board 22 saw Bruce Neill as East at the helm in the most interesting declarer and defensive problem of the day. He declared $4 \checkmark$ on the unopposed auction above where the $2 \boldsymbol{A}$ call showed three trumps and limit raise values.

## Barry Williams

Over drinks Barry said he could assist in some way, so he took on roles as set-up Crew and the Bus Driver. He has been the Bus Driver for 5 years, however, over time, it's one of the things we provide that has been rarely used so from 2025 we are
 no longer having a bus to pick up players.

Thank you Barry.
James Coutts kept his side in the game with a club lead, (the five, playing thirds and fifths) and I wonder if Neill might have considered playing low from dummy. North will often find it very hard to duck even from e.g. A10. Neill actually put in the jack and North, Fraser Rew won the queen and after much thought found the killing trump shift (a few defenders played for club ruffs and made declarer's task easy).

Neill finessed, and now it was up to Coutts to exit in either major suit. The key is that declarer is threatening a dummy-reversal. Repeated trump leads kill that possibility. Coutts cashed the $₫ A$ then went back to clubs. Neill put in the nine and claimed when it forced the ace. From South's perspective he should know that his black suit losers aren't going away. North's decision to shift to trumps rather than cash his club ace makes declarer's shortage highly likely.

Only three tables beat $4 \mathbf{4}$; five made ten tricks in hearts, two played what at IMPs would be the somewhat superior spot of 3NT, making nine tricks.
